CPR To Cut Dayliner Service Lethbr'ge-Calgary

Effective Oct. 30, the Canadian Pacific Railway will operate one dayliner train daily between Calgary and Lethbridge, it was announced recently by Harry Newton, district passenger agent.

The service will operate via Vulcan on Mondays, Wednesday, Fridays and Sundays and by way of Fort Macleod on Tuesdays, Thursdays and Saturdays. The southbound train will leave Calgary at 6:15 p.m. each day, arriving Lethbridge at 8:55 p.m. Northbound, it will leave Lethbridge at 9:00 a.m. and arrive Calgary 11:40 a.m.

Lightness of patronage had made it necessary to reduce this service, Mr. Newton said. Two trains operate daily in each direction at present.

District Crowded With Hunters On Opening Day

In greater numbers than ever, upland bird hunters crowded the roads on opening day, Saturday, and again on Monday.

Reports indicate that most experienced hunters, familiar with the district, had their pheasant limit by noon, but Hungarian partridge were not so plentiful. Many other hunters, out all day, report slim bags.

WEATHER

A mixture of weather the past few days saw a cold north wind bring traces of rain and snow on Saturday morning but the weather disturbance passed and warmer temperatures were again enjoyed Sunday and Monday. Tuesday afternoon temperature was about 60 above.

Highlanders Plan Reunion Oct. 29

The Calgary Highlanders' Association will hold its 16th annual re-union, commemorating the Battle of Walcheren Island, at the Palliser Hotel, Calgary, on Saturday, Oct. 29.

The re-union will take the form of a dinner and social evening starting at 6:00 p.m., followed by a remembrance church parade and memorial service on Sunday morning.

Brigadier H. T. R. Gregg, commanding 22 Militia Group, will be the dinner speaker. Brigadier Gregg served with the Highlanders during World War II and is well known to veterans of the regiment.

The Earl Erickson farm suffered loss of 1200 bales of hay last Thursday when fire destroyed a stack on the east side of the farm. First seen from the highway by Martin Gottenberg, the Vulcan fire department was called but the

blaze had made too much headway to be controlled.

Cause of the fire is not known. Strong winds were blowing at the time but luckily in the right direction away from the farm buildings.

Vote Oct. 19 On Re-zoning

A two-thirds majority of those voting will be required before Block 40, now part of the recreational area acquired by the town for the golf course, ball park and other recreational needs of town residents, can be re-zoned as residential property and sold for home sites.

The land, situated between 1st and 2nd Streets North and 6th and 7th Avenues, is of an area sufficient in size for 18 home sites on 75 foot lots.

The town has agreed to reserve an area adjacent to the golf club house for future recreational expansion, the remaining parcel being large enough for 12 home sites on 75 ft. lots. The land was being considered, a year or two ago, as

a possible site for a home for the aged.

By-law 400, authorizing the town to re-zone all of Block 40 for residential purposes, will be voted on from 10 a.m. to 7 p.m., at the Town Office, Wednesday, Oct. 19. Only proprietary electors (property owners) of the town may vote.

There were 16 members present and Mrs. H. Smith was in charge of the meeting. Correspondence for the group was read by Mrs. Smith and Miss Nettie Ware, secretary. A gift was sent to Permalatta, the little girl in India, who the church here in Vulcan supports. The Missionary offering of the afternoon was sent to Mr. Chapman in Lethbridge, to be applied to the new work being undertaken in Hardville. Happy birthday was sung by all the group to Mrs. Woodman and a pin was presented to Mrs. Lommatsch as one of those who had reached the age of 80 years. Mrs. Smith led the group in the devotional, in which all members took part.

A delicious lunch was served by the hostess.

Last Thursday evening the Young People had their regular meeting at the church and during the regular recreation period some films were shown. Work was started on the devotional which the group will present at the Fall Youth Conference to be held here in Vulcan in November.

Hearing At Vulcan

Board Reserves Decision On Hutterite Land Purchase

Application of the Newdale Hutterian Brethren Colony at Queens-town to the Communal Property Control Board to increase the Colony's holdings by one and a half sections has drawn a storm of protest from organizations and individual farmers of the area and these protests, in the form of written briefs and verbal arguments, were heard at a public hearing of the Board in Vulcan Thursday morning, Oct. 6.

The Newdale Colony, which is composed of 20 families with a total of 100 persons, now holds 6,864 acres of land. Legislation passed by the provincial government last spring authorizes the colony to increase its holdings to a total of 16 sections (10,240 acres). The present application to purchase land covers six quarter sections, three of which are already occupied by the colony under lease and three of which were purchased by individual members of the colony about 18 months ago and which the colony now wishes to acquire in its own name.

Briefs apposing the acquisition of these additional lands by the colony were presented by the Queenstown-Milo Branch, Canadian Legion; District 12, Farmers Union of Alberta; Arrowwood FUA and FWUA Locals; the Vulcan District Board of Trade; and the Milo-Queenstown Local of the FUA.

Main points brought out by the Canadian Legion brief were regarding the purchasing of lands by individual Hutterites when such lands were, in effect, actually part of the colony, and to the difficulty of individual farmers acquiring land for themselves or to set up their sons in farming when the Hutterite Colony was willing to pay \$20 to \$30 per acre more than the normal selling price of the land. The brief expressed the viewpoint that the colony was of no value to the district in that the colony's purchases were, to a large extent, made in the city at wholesale prices; and that members of the colony did not accept the responsibilities of Canadian citizenship.

The Arrowwood brief stated that the Hutterites would never make any contribution to the Canadian way of life so long as their children were taught in separate colony schools and ceased their education at the age of 15. "The Hutterites enjoy the benefits of living in Canada," the brief said, "and the time has come for them to assume some of the responsibilities of Canadians." The brief pointed out that colonies of another sect in Canada were broken up years ago the Hutterites would never make and the members are now individuals farmers and good Canadian citizens. It was felt that a normal, non-segregated education for the Hutterite children should be insisted on by the government.

The District 12 FUA brief mentioned points already covered here and felt that the Hutterites would never be absorbed as responsible Canadian citizens so long as the children were compelled to stay in the colony and work on the land. "The Hutterites have no pioneering tendencies — they only buy

developed land," the brief stated, with the conclusion that the sect was doing little or nothing towards the development of the country.

The Vulcan District Board of Trade brief suggested that any further Hutterite expansion be as private, individual farmers only.

The Milo-Queenstown FUA brief, taking exception to laws which allow individual Hutterites to buy land and re-sell it to the colony, asked that the Newdale Hutterian Brethren Colony be not permitted to buy, lease or otherwise acquire any more land in the Milo-Queenstown - Shouldice - Arrowwood area.

Chairman of the hearing was E. F. Breach, who is also chairman of the Communal Property Control Board, an agency of the provincial government. Mr. Breach pointed out that, by order-in-council, the Newdale Colony could increase its holdings to a total of 16 sections, providing that proper application was made and approval given by the Board. He further stated that land purchased by the colony to increase its holdings within the authorized limit must be adjoining the main colony; that approval would not be given for the purchase by the colony of land two or three or more miles away from the main holding of the colony.

Mr. Breach also stated that the question of non-payment of income taxes by Hutterite colonies was under review and being studied by the federal government. He explained that the colonies were not exempt from the payment of income tax, that the colony members did file income tax returns, but that under the methods used of apportioning the colony expenses and profits among each member of the colony, no one member showed enough income to be liable for payment of the tax.

Other members of the Communal Property Control Board at the hearing were K. A. Luke, secretary, and J. H. Todrick. Absent was board member Ian Morris and decision of the Board regarding the Hutterite Colony application to purchase the six additional quarter sections was reserved.

Over 100 interested persons were present at the hearing, including L. E. Kindt, M.P. for Macleod, and Hon. Rev. Peter Dawson, MLA for Little Bow.

Lots of parents would have a car if the kids didn't have drivers' licenses.

Sure is a difference between good, sound reasons and reasons that sound good.

MAJORVILLE

Judging by the number of trucks hauling coal during the past week, neighbors know that the recent temperatures of 70-80 won't last all winter. Old-timers are agreed that it has been one of the driest seasons ever experienced. Dams are low and sloughs that were never known to go dry have no water. However no one is complaining about the nice weather. For once the fall chores should be pretty well wrapped up before the weather takes a turn for more seasonal patterns.

Get well wishes are also sent to Leonard Voogs who had the misfortune to fall from a load of feed last Saturday and as a result was a patient in the Bassano Hospital for several days with an injured foot and leg.

Mrs. Bert Clemmons was the lucky winner of \$30 in the baseball pool on Wednesday.

Belated congratulations and good wishes go to Mr. and Mrs. Ray Wellman who celebrated their 47th wedding anniversary on Oct. 1.

Mr. and Mrs. Bueford Culp and family of Arrowwood were visitors on Sunday at the home of Mr. and Mrs. Bartsch.

A crew of men were busy this week pouring cement for the basement of the new farm home of Mr. and Mrs. Bob Scott who plan to build in the near future.

Mr. and Mrs. Reece Wellman are receiving congratulations on the birth of their fourth daughter in the Vulcan Hospital on Sunday. Grandma Wellman has the other three youngsters while mother is in hospital.

Also receiving congratulations are Mr. and Mrs. Fred Bertichy, Jr., on the birth of a son in Calgary on Monday.

Mrs. Alf Heather accompanied by her daughter-in-law, Mrs. Roy Hostetler of Lomond was a visitor to Brooks the first of the week.

Alex Long visited with relatives in Claresholm during the week. Get well wishes are sent to Sam Galle who is a patient in the Vulcan Hospital with pneumonia. Sam now lives in Milo.

Mrs. Strang Fraser, Sr., of Cluny spent a few days during the week at the home of her son-in-law and daughter, Mr. and Mrs. Bert Clemmons.

On a recent big game hunt, Jay Bartsch came home with a moose. Duck hunters are disappointed at the shortage of ducks in the vicinity this season; some think the lack of swaths of grain in the fields has something to do with it but lack of water in some sloughs may also be the cause. Goose hunters however say the hunting is good.

Larry Deitz fell off the teeter-totter at school but escaped with only a bump and some scratches on the forehead.

Mr. and Mrs. George Heather went to Calgary where George underwent a medical check. His friends will be glad to hear that all that is the matter with him is that he is working too hard.

Mrs. Irvin Sukut and Mrs. Haldor Thompson were busy this week preparing the scenery for a forthcoming concert.

Congratulations to Barry Gore who won the Queenstown Women's

Institute annual award of \$15 for the highest marks in Grade nine at the Milo school. Barry was tied with a Milo student, Joy Black.

Hunters converged on the district from all points of the compass on Saturday, hoping to fill their bag limit of upland game and local sportsmen headed for distant points bent on the same mission. Local hunters report good luck right near home. Some light snow fell Saturday morning and the weather was quite cold.

In the report last week of Spokane visitors with Mr. and Mrs. Stanley Godkin, the name should have been Mr. and Mrs. Mark Say, not Mr. and Mrs. Mary Say.

All the above listed females of serviceable age have been pasture bred to one of the two herds. Anyone interested in Registered Hereford cattle raised under open range conditions should make plans now to attend the Dispersal Sale. A sale catalogue will be available.

Six-year-old Danny McFadden tripped and fell while chasing a ball in the school yard, splitting his knee. Twelve stitches were needed to close the wound. After spending a few days in Vulcan Hospital, he was back at school

again.

On Sept. 18, Fred Andrews and David Dawson returned to university, accompanied by Fred Fujiwara and Christopher Panter. Congratulations are extended to the boys — each of them scholarship winners.

Tuesday, Oct. 25, the Brant Ladies Aid Tea, Bazaar and Bake Sale will be held at the Brant United Church hall at 3:00 p.m. 11-2x

Students' Union

The Brant Students' Union held their first meeting of the year to elect officers, and are as follows: President, Gary Kennedy; vice-president, Lee Fletcher; secretary, Janice Hunter; treasurer, Mary Fujiwara; social convener, Marilyn Hansen.

Initiation day at the Brant school was held on Sept. 16, when the Grade nines arrive in a variety of costumes — Eskimo, washerwoman, barber, Indian in bikini, witch doctor and hobo.

During the evening of hi-jinks and dancing, Shirley Swartz and Lee Fletcher were chosen as "queen" and "king."

Home and School Association The regular meeting of the Brant Home and School Association was held in the Brant school on Sept. 14. The president, Mrs. Marie Gallagher, reported that two projects, usually sponsored by the Home and School, are already underway. It was also reported that Mrs. Cutler will again be giving music lessons in the Brant school on Thursday.

Mrs. Sophia Jorstad gave an interesting report of the annual convention held in June in Lethbridge.

Mr. Truss, while speaking to the meeting about reading in the school, suggested that reading in

the home to the children would stimulate interest and teach that reading is fun.

The program for the next meeting, Oct. 5, will be a talk on, "Creative Art in the School," by Mrs. Truss.

Home and School Association

The Brant Home and School Association opened their second meeting of the season on Wednesday, Oct. 5, with Mrs. Margaret Smith reading the creed. There was a good turn out of members and visitors with Mrs. Gallagher in the chair, assisted by Mrs. Jorstad as secretary.

The president reported that furnishing the staff room, a project of the association, has been completed, with the installation of bookshelves for the convenience of the staff. The teaching staff have decided that, in view of the fact that the season is too short to practice for a track meet, that a school sports day in the spring would be more favorable for all.

It was moved that the local association accept the recommendation of the executive to continue to use films from the Department of Extension for the pupils' benefit. It was also decided that each family in the association donate \$1.00 for World Refugee Year. Mrs. Ball is accepting donations which the Home and School will forward to headquarters. It is hoped that all members will keep in mind the regional conference to be held in Vulcan, on Saturday, Nov. 12, from 9:00 a.m. to 5:00 p.m.

Mrs. Stotts, program convener, introduced guest speaker, Mrs. Truss, whose topic was creative art and its relationship to our school program. Mrs. Truss very ably stressed the point that every child, at all age levels, should be encouraged to express himself through creative art of his own choice and imagination; thereby letting the child follow his own line of thought and interest, whether it is painting, handicraft, writing or any other of the many creative arts. This very informative talk was thoroughly enjoyed by all.

The topic of the guest speaker for next month will be, "Accepting and understanding our child's abilities." The next meeting will be held Wednesday, Nov. 2. The evening was brought to a close with lunch being served by Mrs. Knapp, Mrs. McNiven, Mrs. Fujiwara and Mrs. Stotts.

The Older Worker

The Minister of Labour several months ago circulated to employers a questionnaire regarding their experience with older workers. Now, we learn, the great majority of those replying agreed that in such matters as turnovers, learning ability, absenteeism and accidents, the older worker gets high marks; higher marks, in fact, in many cases, than younger employees.

This test of Canadian employer opinion confirms many earlier studies on this continent. On the strength of these there can be no doubt that a whole lot of preconceived notions on this subject are in need of drastic revision.

Among the comments made: Older men have proven their ability. They stay with the company for a longer period of time. They bring a good measure of maturity to the job. They account for fewer lost days than their junior counterparts. They have better judgement and are less likely to be diverted by wine, women and song. They are more persistent, less easily discouraged.

One manufacturer reported hiring four salesmen five years ago. Two of them turned in superlative results and are still with the company. They were both over 50. The two younger men were recently replaced—by older men. Today, 17 of the company's 28-man sales force are over 50.

The company president had the following to say about his "senior" sales staff: "The customer reacts favourably to the dignity and reserve of older men, and often accords time and attention he would deny a younger, high-pressure salesman."

He continued: "Geriatrics experts tell us that men and women never grow old as long as they keep their sense of humour and active interest in others. It must follow then that being profitably employed, rather than just sitting in a rocking chair, helps add years as well as happiness to life."

Clearly, the older worker, far from being a company liability, is more than likely to prove a first-class investment.

SEVENTY-FIVE MIGHTY John-son sea horses power this sleek run-about for a happy outing on the water. New innovations each year are making boating easier and more popular with hundreds of thousands of Canadians, but this boom in boating brings a responsibility to each and every skipper. Boating "rules of the road" and common sense practices must be observed, and apply to everyone afloat. Safe boating is happy boating.

STRONG LANGUAGE NEEDED

A distinguished dignitary of the church had been warned by his physician that he needed both exercise and a hobby for the sake of his health. He suggested golf and the minister dutifully bought a set of clubs and started lessons at the local club.

After several days of practice, the pro decided he would give his pupil a playing lesson. He teed up the ball, handed the minister a driver and awaited results.

The first swing was a complete miss. "Oh my goodness," murmured the chagrined golfer.

He tried three more swings, each one hitting several inches behind the ball. On the next try, a divot came flying up. The disgusted minister glared at the ball muttering, "Tut, tut."

The instructor shook his head. "Reverend," he said, "you'll never learn to play golf with those words!"

CIVIL

DEFENCE

Although Canada will persist in its efforts to avoid war, there still remains the risk of a nuclear war.

The best and simplest way to safeguard against fall-out is by household shelters.

Each householder can and should decide whether or not to have this form of family protection. I recommend it.

HERE! THE GREATEST SHOW ON WORTH!

SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear — the new-size, you-size '61 Chevrolet. A car so right for you in so many ways that once you compare it with the rest of the crop you'll agree nothing else near the money measures up to it.

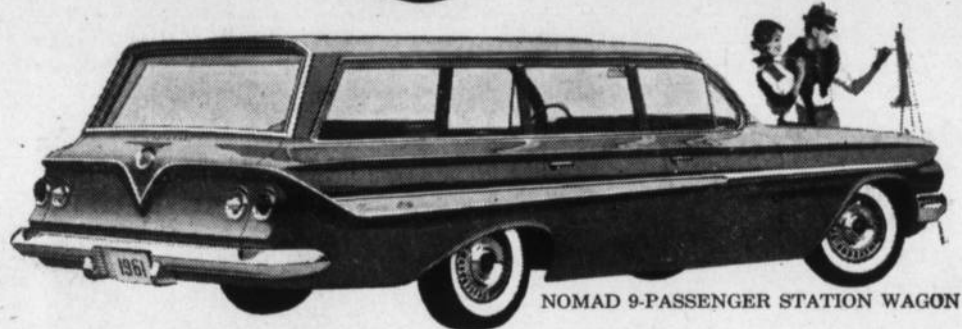

We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and manoeuvring) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher — just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, headroom has been upped as much as 2 inches, and there's more legroom, too — front and rear). Chevy's new trunk is something else that will please you hugely — what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details that make this sensationally sensible '61 Chevy a new measure of your money's worth.

More room — more for you, more for your things. More dependable operation. Smarter, smoother styling. More miles per gallon. Station Wagons, too.

Corvair for '61: a complete line of complete thrifty-cars from Chevrolet.

To start with, every Corvair Sedan and Coupe costs less. And Corvair goes on from there to save you even more. With extra miles per gallon... quicker-than-ever cold-start warmup so you start saving sooner... a new extra-cost optional heater that warms everybody evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more useable trunk space).

And our new wagons? You'll love them. They're the greatest thing for families since houses. The Lakewood Station Wagons do a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagons you're going to have to see — they give you up to 175.5 cubic feet of space for you and your things. Compare that with any other Canadian wagon going!

Corvair's whole thrifty line-up gets its pep from a spunkier 145-cu-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance: you get at your Chevrolet dealer's.

Lazy Summer Holidays Now Just A Memory

The following is the conclusion of the brief holiday survey taken some weeks previously.
Two long-distance travellers this summer were Mr. and Mrs. Charles Ottewell. Their trip took them through two warm weeks to Eugene, Ore., a total of 2,000 miles.
One major revelation made was that bus travel, their mode of transportation was not found unpleasant to them, as is sometimes felt in such distance. Buses are air-conditioned, comfortable and many stops break up the trip.
Another family covered was John and Shirley Wolfe and children who took the third week in July for a few days spent at Radium and Golden, but spent their two most interesting days right in Calgary where they visited the Zoo, St. George's Island and the new Aquarium. They have marked these sights as musts for the future when more time may be spent covering the features more closely.
Returning to the home front, three of the Advocate staff have finished holidays, the publisher is presently on his and a fifth member, LaVern Scott, is serious about winter respite this year, so is still on the waiting list.
One of the Advocate staff, Raymond Morgan, based his holiday operation 70 miles away and covered about 1,000 miles of country indicating he is young, single, has his own car (with a radio and three speakers), and was geared for a more active time than most interviewed.
Ray's touring took him to Banff, Lake Louise and Strathmore. His criticism of his vacation was only of the heat during his early July break when the temperature reached the high 90's and he found the Calgary streets even hotter than when he lived there.
His dream holiday would be a trip to Europe.
Other Advocate personnel scrounged from relatives for most their two weeks, knocking on doors at Calgary, Edmonton and Westlock. Not on a normal resort trail but branching from the Alaska Highway some 65 miles north of Edmonton, Westlock is a progressing municipality-seat, similar in size to Vulcan, plagued with narrow streets and angle parking and not so richly endowed with gravelled country roads as is this area.
The town was faced with similar water problems to those existing in Vulcan but was able to erase their trouble by piping water from the Pembina River, eight miles distance, at a cost of over \$370,000.
Gull Lake, seven miles west of Lacombe, was to have been a three-day stop but a combination of wet weather and lack of accommodation forced the stay to be overnight. The south shore of the lake is ringed with private summer homes and possibly could have been rented, as is the case, at Syl-

van but no rental agency or contact at three general stores could be obtained. Of the three cabin rental units suggested, two were found and the most promising cabin was rented at \$5 per night but found unacceptable by average standards.
Gull Lake itself is of good size suitable for boating, swimming and especially recommended for families with children as the water is shallow for hundreds of yards from the shore and the beautiful sandy beach is probably the largest in the area. A government tent and trailer ground is established but it would be wise for travellers looking for cabins, to try in advance for the privately owned homes along the lake.
Pine Lake, east of Penhold, is about seven miles long with deep water and generally no beaches but at the various public camp grounds and cabin units good swimming areas are provided for children.
Weather during this holiday spell of the middle two weeks of August was generally not pleasant for lake living. Although complete tenting gear was packed in the car trunk and dragged out countless times when unpacking, the canvas was never put up which is the ultimate in unnecessary equipment and which barely surpasses the local family who set out on a tenting trip and found the first night out that the tent poles had been left behind.
